Guruji

“Sirf Salah Nahi, Aage Badhne Ka Raasta —Guruji Dikhayega Viksit Bharat Ka Raasta”

Team - TrillionGame

RAJVEER DANGI, PIYUSH, AASHUTOSH

The Problem

Only 5.6% of rural youth (14-18) are currently in vocational training

🌐 ASER 2023 “Beyond Basics” | MoSPI PLFS 2025

- 11.8% Rural Graduate are Unemployment
- Among young graduates, unemployment is 19.2% for men and 29.4% for women

🌐 Forbesindia.com , JustJobs Network (PLFS 2025)

- Only about 1 in 4 rural teens (14-18) has used a phone for online services like payments, forms, bills or tickets
- Only 19% of girls, compared with 37.6% of boys

🌐 ASER 'Beyond Basics' Report

- Only 10.4% of students in Classes 9-12 have professional career guidance, so roughly 9 in 10 do not
- India needs about 14 lakh more career counsellors (estimate)

Solution

“Guruji — Voice-First AI Career Mentor "

1. Powered Phone-First Access

Bolna AI enables voice-based phone interactions, helping students access career guidance through ordinary phone calls without needing to navigate complex apps or websites.

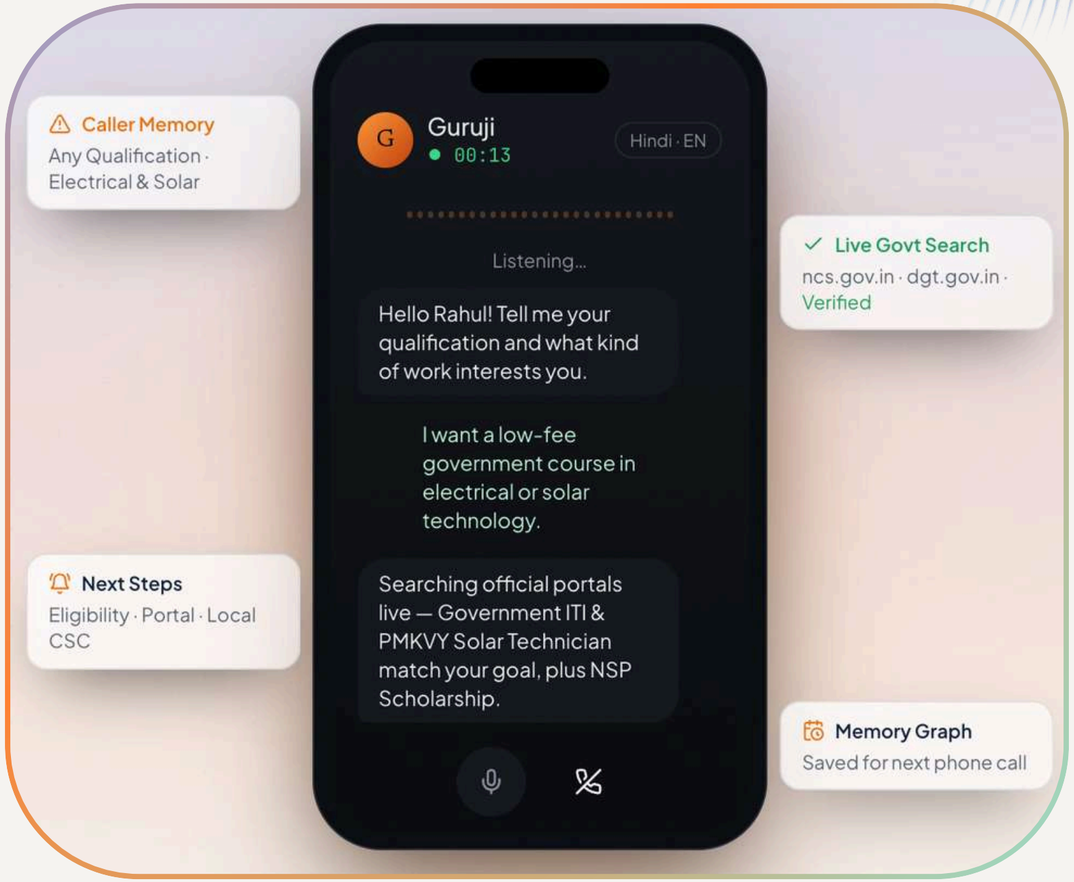

2. Personalised Career Guidance

Powered by **Bolna AI** voice interactions, Guruji helps students explore relevant career paths based on their interests, qualifications, and goals.

3. Indian-Language Voice AI

Bolna AI powers calling, with Sarvam AI planned to support Indian-language interactions.

Our Vision: Leveraging Bolna AI to make career guidance more accessible and support Viksit Bharat 2047 through informed career decisions.

Feasibility

“A phone-first career mentor with personalised student memory”

01. **Phone Calls:**
AI calls tested; missed-call service is planned.

02. **Personal Student Memory**
Remembers goals and past conversations.

03. **Career & Scholarship Guidance**
Suggests career paths based on the student’s questions and interests.

04. **Actionable Next Steps**
Clear steps for the student's future career.

MVP Flow: Missed Call → Student Memory → Career Guidance → Next Step

Business Model

“Free for students. Funded by institutions”

01. Target Users

Rural students

02. Who Funds It?

Schools · NGOs · CSR Partners

03. Revenue Model

Sponsored pilots → Annual institutional contracts

04. Costs

Calls, AI APIs, Hosting
